

The Courtenay Way

In my Classroom

I follow the group plan.

I take care of materials.

I can use my strategies so that my body and brain are ready to learn.

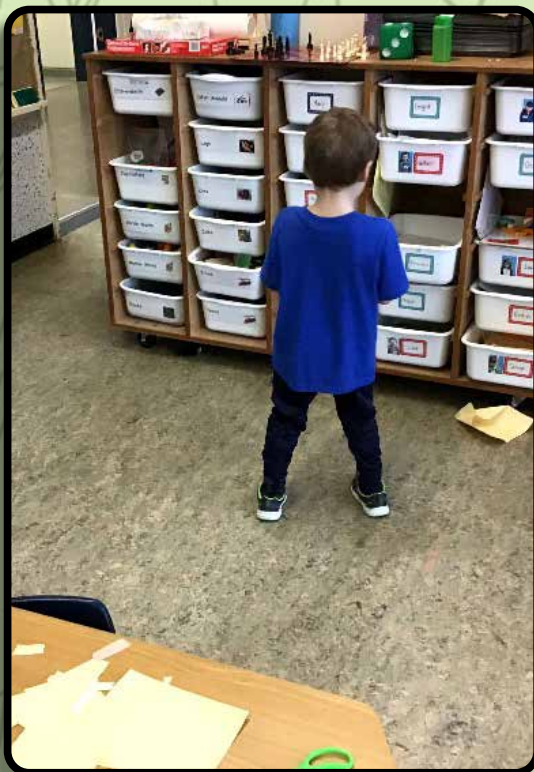

I use a strategy to calm down.

I can show my learning in different ways.

I think about the next steps and what materials I need.

I use the learning tools first and ask for help when I need it.

We listen to each other.

We take turns and share classroom supplies.

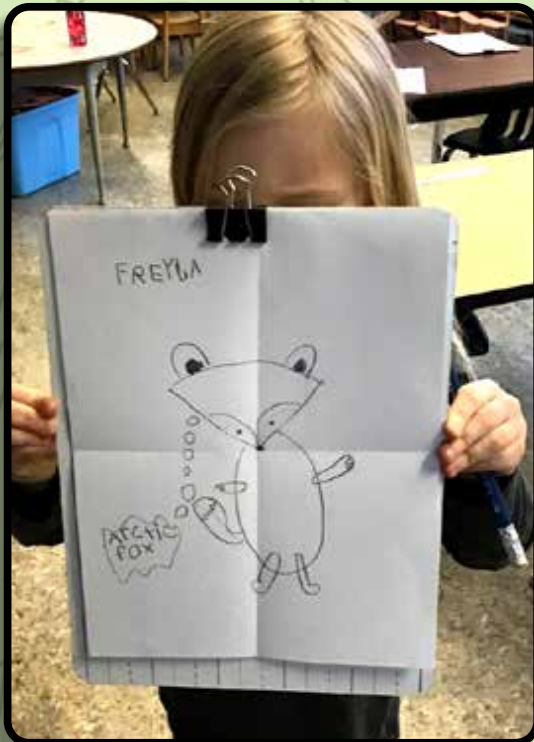

I care about my learning and the learning of others.

I am mindful of my voice volume.

I do my personal best.

I help others.

**I am excited
to learn!**
