

Week At A Glance March 5, 2023

Hi Denman Families,

What a busy, fantastic week we had last week. The students were so excited to share their learning with families, and I heard from many parents how much they enjoyed the opportunity to see their child's learning journey in person. Our field trip to the Cumberland museum and bowling was so much fun! At the museum, students were able to try some Chinese calligraphy upstairs and pretend they were a miner in Cumberland while they toured a replica mine downstairs. Thanks to the staff and parent volunteers who came along and made the day possible.

This week's salad bar will be roasted butternut squash soup with bacon and a veggie option as well. We are looking to buy a dozen eggs locally every week for the salad bar. If you know someone willing to sell to the school and invoice us, please pass on their name to Isabel at the office or myself.

The garden renovation is coming along quite well even with the frozen ground and dusting of snow. All the greenhouse pieces are almost here, and the new fence posts are in. This week we will have some guests from the highschool trades sampler program come over to work with our students to make the 6 new garden beds. We are looking forward to making our new raised beds out of DI cedar provided by Antoine!

Have a great week!

Yolanda Lehton, Vice-Principal

Upcoming events:

Ongoing Kindergarten Registration – see <https://www.comoxvalleyschools.ca/>
