Lucy Dabbs, a past Denman school student, shared her award winning animated film with us and showed us all how to make a stop action animated film. It was a lot of fun! Lucy's film, The Plastic Problem, has recently been accepted to four film festivals (Maryland, California, Italy and France)! We hope that Lucy will be able to share more of her talent with us when she is back on Denman visiting home. Follow the link below to enjoy her film.

Thank you to Dr. Lauren Dykman of the Kelp Rescue Initiative and the Denman Island Marine Stewards and team for sharing the incredible work being done to restore the kelp beds around Denman Island. The pictures were beautiful, the science behind growing kelp fascinating, and the Virtual Reality goggles we all got to try were amazing. We really felt like we were diving through beautiful kelp beds. Follow the links below for more exploration of the ocean environment that surrounds us.
