How do you
hatch chicks in
the classroom?

Fresh Eggs by Jake Wasdin (2006) <https://www.flickr.com/photos/wasdin/234504850/>

First you need to
collect eggs from
a chicken coop
that has a rooster
with the hens.

A hen is a female
chicken.

You put the eggs
in the incubator. It
will take 21 days for
the eggs to hatch.

The chicks are wet
when they hatch.

They will stay in the
incubator until they
are dry.

**When the chicks
are dry, they
go into the
chick box to get
stronger.**

**They eat and
drink water.**

The chicks stay warm
under the light.

The chicks go back
to the farm.
