Sea Lions
on our Coast

**Sea lions are
mammals that have
flippers for feet.**

**Sea lions swim in
oceans. They are
fast swimmers.**

**Sea lions have tiny
ear flaps.**

**Sea lions have thick
skin and fur.**

**Sometimes
they sleep in
the water.**

**Sea lions tell each other
where food is.**

**Often they float on
their backs to sleep.**

**Sea lions can live for
20-30 years.**

Do you see the small pup? She will learn how to catch fish when she is two months old.

Sea lions mostly live in the water but go on land to warm up in the sunshine.

**A big wave good-
bye from our coast!**
