**Seagulls are always  
looking for food.**

Sometimes seagulls  
eat starfish.

This fish looks too big  
for seagull to eat.

Description: Day 73 - seagulls flying at Point Holmes (33481840635).jpg English:  
The herring are in and the seagulls are happy Date: 14 March 2017, 18:24:18

The herring are swimming by  
and the seagulls are happy.

Herring are  
small fish  
just the  
right size  
for seagull.

This seagull has found a  
crab.

These seagulls are not at  
the beach.  
They are trying to eat  
garbage!  
That is not very smart!

These seagulls are looking  
for fish in Tofino.

Are there fish here for  
these hungry birds?

# Seagull will find a clam and use its beak to grab it.

Then seagull flies  
with the clam.

[https://commons.wikimedia.org/wiki/File:Seagull\\_dropping\\_clam.jpg](https://commons.wikimedia.org/wiki/File:Seagull_dropping_clam.jpg)

Seagull drops the  
clam as he flies.

The clam shell breaks open  
when it hits a rock on the  
beach. Seagull will eat the  
meat inside.

Such a smart seagull!

Oh my! There is a clam  
shell on my deck chair.  
I wonder how it got  
there?
