Have you ever seen a flower
like this in the forest?

This wild flower is called
a trillium.

Trillium have a long stalk
called a scape.

Trillium have three flower
petals. On Vancouver Island
we usually see white trillium.

But trillium can have red
petals too.

Sometimes trillium are
purple, pink, yellow, or green.

There are six, yellow stamen
in the center of each flower.

Drawing by Sophie of Cumberland Elementary, Comox Valley, B.C.

You can draw
trillium.

Your class can draw trilliums!
