Print Shop Catalogue

LEARNING RESOURCE CENTRE, COURTENAY BC

• 2024 •

Revised May 2025

printshop@sd71.bc.ca

Tel: 250-338-7926 x 12970

Fax: 250-338-8629

To our customers

Thank you for your interest in our printed resources and teaching tools. Most of the items in this catalogue have been created by our local SD71 Print Shop with the expertise of the LRC support staff as well as teachers and administration throughout the district.

Some of the resources have been shared by other districts and downloaded from websites who share their materials with a conditional non-profit requirement. Although the print shop can distribute these shared resources within our own district, we cannot sell them out of district for a profit. The tools and resources that fall into this category have an orange star by the price.

If you are an employee of our Comox Valley School District, you are welcome to all the products at cost which is the price that is offered in the catalogue. If you are ordering outside of our district (parents, external school districts, tutors), we are happy to share the resources that do not have an orange star by the price tag. Write out your order and add 30% to your total + GST (& PST for personal and non-school use). For shipping, the cost is roughly 15% of your total order, with a minimum charge of \$15. We will finalize the cost once we have processed your order and email or phone you with the total.

All EXTERNAL orders must be paid ahead of time by Visa, MasterCard, Cheque, Cash or Debit (Debit at the LRC only) before they are processed unless they have a purchase order number. Please note that there are two different order forms in the catalogue: one for internal orders and the other for external orders.

The print shop would like to thank all those who have invested their time, wisdom, trust and contributions to the print shop; school board staff as well as work experience students who braved the chaos.

SD71 PRINT SHOP

Before Reading

- Read and think about the title of the text.
- Think about what you already know.
- Look at the cover and read the blurb on the back of the book to make predictions.
- Take a picture walk.
- What questions do you have before reading?
- Determine your purpose for reading.

During Reading

- Make predictions and connections as you read.
- Think about the pictures in your head as you read.
- Use your strategies to figure out unknown words.
- Monitor your comprehension.

After Reading

- Reread or look back through the book.
- Can you retell the story. (Fiction)
- Can you retell the most important facts. (Non-fiction)

Before, During & After - Spinners

\$5.25

How is this text organized?

A minitask each time a nonfiction book is opened

Texts That Hold on Tight

How does this organization help you find the author's main ideas?

☐ #1044
How is This Text Organized

*See Poster Prices & Size Chart at the bottom of this page

The Paragraph

Begin with a topic sentence to tell your reader what your topic is. Then, use a question, begin with a main idea, create a really interesting fact, use dialogue, create a 100% mystery, or begin with a single word.

Supporting details in the middle of the paragraph. What your reader needs to know.

End it by reminding your reader what they've just read. Try: ending with a question, with a main idea, an interesting fact, one dialogue, a 100% mystery, and with a single word.

Now, your reader could be very excited to read your paragraph!

☐ #2003 The Paragraph Burger

*See Poster Prices & Size Chart at the bottom of this page

Active Readers:

- make connections
- predict
- ask questions
- visualize
- figure out main ideas and details
- summarize
- make inferences
- use text features
- synthesize and transform

☐ #2007
Active Readers

*See Poster Prices & Size Chart below

Background Knowledge

Making connections using our background knowledge

Thinking Stems

- That reminds me of...
- I'm remembering...
- I have a connection to...
- I have schema for...
- I can relate to...

Synthesizing

Changing your thinking along the way

Thinking Stems

- Now I understand why...
- I'm changing my mind about...
- I used to think... but now I think...
- When I put everything together...
- Now I think that...

Predicting

Making predictions about what's to come

Thinking Stems

- I think that...
- I know that... is going to happen next.
- I can't wait to find out if...
- If I read on I'll...

Metacognition

Thinking about our thinking

Thinking Stems

- I'm thinking...
- I'm noticing...
- I'm wondering...
- I'm seeing...
- I'm feeling...

Inferring

Background knowledge plus Evidence = Inference

Thinking Stems

- My guess is...
- Maybe...
- Perhaps...
- It could be that...
- This could mean...
- I infer...

Visualizing

Create mental images. Use your senses

Thinking Stems

- I'm picturing...
- I can imagine...
- I can feel... I can smell...
- I can see... I can taste...
- I can touch... I can hear...
- My mental images include...

Determining Importance

What matters most?

Thinking Stems

- What's important here...
- What matters to me...
- One thing that we should notice...
- I want to remember...
- It's interesting that...

Student Planners

We design and print student planners. Our most popular are the 5.5x8.5" intermediate version and the 8.5x11" primary version. We have options to fit any budget from coated card covers and saddle stitching to coil bound with polyester no-tear covers. We can also custom design to fit your needs. We don't have minimum orders and you can order more anytime throughout the school year for late students. Please contact us for a quote.

[illegible]

- #3056**
Numeracy
Bags
 K/Gr. 1, 20
 math games
 to assemble
 for use in the
 classroom or to
 send home for
 extra practice.
\$8.00

Math Partitioning Cards

The square corners are cut out and the two sides fold to the middle. One side is folded in and the card is shown to the student(s). What's the missing part? How many ways can you represent the missing part? Can you generate a word problem matching the images shown?

The top can also be folded to the back, and you can ask for the total.

Counting Collections Bottom's Up

Based on the work of: www.nctm.org/Publications/Teaching-Children-Mathematics/2017/Vol24/Issue3/A-Bottom-Up-Hundred-Chart/

The traditional hundreds chart is counter-intuitive to how students understand and recognize number. When numbers increase by 10 or more, they go down. The hundreds chart is set up to mirror reading (left-to-right, top-to-bottom). By inverting the chart and starting with zero at the bottom, students can explain that when the number increase by ten it gets larger/taller/bigger/greater which are all modeled when they move "up".

☐ #3162 - Bottom's Up Number Chart 8.5x11", 2 sided: 0-119 & 1-120 Laminated \$1.25

☐ #3167 - 120 Bottom's Up Number Chart 11x17", 2 sided Laminated \$1.50

☐ #3175 Bottom's Up Student Colouring Charts 8 charts on two-sided on heavy paper (not laminated) \$0.50

☐ #3168 - 120 Bottom's Up Multiples Charts 8.5x11", Laminated

Math Journals

Math journal booklets, created by Alison Walkley & Heidi Jungwirth. Available for SD71 employees.

Non SD71 Employees, please order through www.pennydropteaching.ca

- ☐ **#3178 Math Journal - Primary**
7"x8½", bw, vinyl pocket \$3.40

76 page notebook based on the K-5 math competencies. With 1 cm grid paper perfect for recording mathematical ideas.
Each page has a designated area for recording the focus of the work and the date. A number path to 20 runs across the top of the pages.

- ☐ **#3179 Math Journal - Intermediate**
7"x8½", bw, vinyl pocket, includes bookmark \$3.50

76 page notebook based on the K-5 math competencies. With 1 cm grid paper perfect for recording mathematical ideas.
Each page has designated areas to record the focus of the work, the date, and reflect on the learning. Reflection questions are included.

- ☐ **#3180 Math Journal - Middle Years**
7"x8½", bw, vinyl pocket, includes bookmark \$3.50

76 page notebook based on the 6-8 math competencies. With 1 cm grid paper on the left side and 0.5 cm grid paper on the right side. Perfect for recording mathematical ideas and reflecting on their math work.

Images on the back cover and front inset are designed to encourage a growth mindset and highlight the k-5 competencies from the BC Curriculum.

For more information on how to use the journal, visit www.pennydropteaching.ca.

Number Sense

Created by Alison Walkley & Heidi Jungwirth.

Students develop a true understanding of number sense concepts.
18 booklets from level 1 to 5.

Students work independently at a "just-right" level. Teachers mark the booklets, giving immediate formative feedback to each student.

The routine takes 20-25 minutes per day.

A Teacher Information guide, tracking documents, and summative assessments are available for download on www.pennydropteaching.ca.

8½x7", bw, 26pgs, corner stapled

Singles \$1.05
Complete set (1) \$2.00

Formative Assessment The Six Big Strategies that Matter	
1	Learning Intentions – learners should be able to tell someone else, in their own words, what the goals are and how the concepts connect to life beyond school.
2	Criteria for Success – learners have clear criteria for quality and know what they are aiming to get better at.
3	Thoughtful Feedback – learners have regular feedback that focuses on moving the learning forward.
4	Thoughtful Questions – design and use to feed discussions that generate evidence of learning.
5	Learning/Teaching each other – learners are productive with peers as participants in learning.
6	Learners Own their Learning – they know they can learn and think about their own learning.
