PERSONAL INFORMATION DIRECTORY

SCHOOL DISTRICT NO. 71 (COMOX VALLEY)

June 25, 2019

Background

The School District is subject to the Freedom of Information and Protection of Privacy Act (“Act” or “FIPPA”) which governs its collection, use, disclosure and protection of personal information. One of the important ways in which the school district seeks to ensure appropriate accountability, transparency and protection of personal information is to maintain and make available an inventory or directory of the different collections of personal information (or personal information banks) that are maintained by them.

The development of a personal information directory (PID) by the School District is addressed in Section 69(6) of the Act, which provides for the creation by the School District of a PID listing all collections of personal information (referred to as “personal information banks”) maintained by it. A personal information directory is also to include certain specific information about each “personal information bank” maintained by the School District. Specifically, the Act indicates that the personal information directory should include the following information about each personal information bank:

- It’s title and location;
- A description of the kind of personal information and the categories of individuals whose personal information is included;
- The authority for collecting the personal information;
- The purposes for which the personal information was obtained or compiled and the purposes for which it is used or disclosed;
- The categories of persons who use the personal information or to whom it disclosed;
- Information required under subsection (7).

Any questions about the collection of personal information or the contents of this PID may be directed to the Secretary-Treasurer.
