

STUDENT ILLNESS / INJURY

Background

Care must be exercised when incidents to students occur. Wherever possible, personnel with first aid training are to examine the student to determine the nature and extent of the illness or injury before proceeding further. Where no such person is immediately available, the staff member is expected to act as a reasonable parent in using his/her own judgment in what is best for the child.

Procedures

1. Before treating minor injuries in school, school personnel are to check verbally or from the child's record card whether there are any allergies that may affect the child's treatment.
2. Where the illness/injury appears to warrant further medical attention, the parent must be phoned, and they are to direct the school staff as to what action they deem appropriate (someone will collect the child to be taken to the hospital, etc.).
3. Where a parent is unavailable, and the situation appears to warrant it, the Principal shall act in loco parentis, and take such action as deemed appropriate, including, where necessary, consultation with the child's physician.
4. Where a parent authorizes it, or in their absence, the Principal deems it necessary, the Principal may authorize transportation of the student to a doctor or hospital. The driver may be reimbursed for travel expenses in accordance with District procedures on submission of an expense claim.
5. If a child, upon initial examination is suspected of having a serious injury, the child shall not be moved except where required by external dangers. Someone with first aid training or a medical practitioner is to be called to the scene. The injured person is to be made as comfortable as possible, and is not normally to be left unattended during this period.
6. Where the injury is determined to be severe, the attending staff member is to call 911 for Emergency Medical Services and a staff member is to be assigned to accompany the ambulance.
 - 6.1 The District will accept billings for ambulance calls to schools in emergency situations. Principals shall review and approve ambulance billings.
7. In all cases where medical treatment is administered to a child on or off the school premises, the parents are to be informed by phone as soon as possible.

8. Incidents which might possibly require the service of a doctor, nurse or other trained person shall be reported as soon as possible after the incident, providing full particulars Student Incident Form (Form 315-1). [School Protection Plan Form](#)
