

STUDENT TEACHING AND INTERNSHIPS

Background

In accordance with the *School Act*, the District shall, when a request for permission for student teachers to practice and observe teaching has been received from a university established under the *University Act* or a teacher training institution, permit such student teachers free access to District facilities to practice teaching, supervising, observing, and any other related activities. The appropriate Director of Instruction will oversee student teaching and internships.

Procedures

1. A student teacher permitted to work in any school or classroom has the same disciplinary authority as a teacher in the school.
2. The student teacher must provide a satisfactory criminal record check through their educational institution.
