## **SNOW REMOVAL**

## **Background**

The School District recognizes its responsibility to maintain a safe environment on its schools' grounds. In recognition of that responsibility the School District has established procedures for snow removal in parking lots and on sidewalks around schools.

## **Procedures**

- 1. When there is a significant snowfall (five centimeters or more of snow accumulation), the School District will assign staff and contract with a company to commence snow removal.
- 2. First priority for School District staff will be removing snow to enable safe access to and egress from school buildings.
- 3. Second priority will be removing snow from sidewalks adjacent to school property.
