

## Neighbourhood Kindergarten

*At the school nearest you*

*“Children are strong, capable in their uniqueness and full of potential.”*

*-BC Early Learning Framework*

At the school nearest you there is a Kindergarten ready to welcome your child.

Your neighbourhood Kindergarten has all the features of play-based, engaging learning environments. Our teachers are skilled at creating communities of learners and nurturing friendships.

A typical day in kindergarten will include times for stories, songs, conversation and discussion, play-based choice time, snack and lunch time. Students will partici-

pate weekly in music class as well as have opportunities to develop gross motor skills in the gym and visit the library. Often there is outdoor play and exploration, or walks as a class, or even spending time in a nearby forest. Noticing our neighbourhoods and outdoor environments helps children become aware of their community and develop curiosity and care for the natural world. A full day play-based program has long term benefits for children’s academic and social skills.

We look forward to welcoming your child in September!

**Bussing:** Bussing may be an option for your Neighbourhood Kindergarten. This link has information about that: [Student transportation](#)

**Where is my neighbourhood school?** Use the [School locator](#) to find the school nearest you.
