My Personality Bag - Assignment

Having a better idea of our personality, strengths, preferences and skills will help us as we begin to identify the steps we need to take to achieve our educational and career goals.

1. Take the personality survey at <https://www.16personalities.com/>. What personality type did the survey determine you are? How does this compare to your results on the personality assessment in MyBlueprint? Demonstrating an understanding of the results, reflect on the assessments and if you agree or disagree with the qualities of the personality type and how they relate to you. Do you feel that an online test can truly understand someone's personality? (Take some time to think about this question and draft some thoughts before writing here)

2. **You will now be making your own personality bag!** Select seven to ten things that you will put in your personality bag. Remember, these things must represent your individual traits, personality, and view of life. Put these items in a bag (the bag itself can be one of your items if you choose), which will then be your personality bag! Photos of the items are only acceptable if you can't find the actual item, or if the actual item is of high value monetarily or sentimentally. You must, though, have at least five "real" items in your bag.
3. In the table on the next page, list the items included in your personality bag. Give a brief explanation as to why you feel that item was important enough to be included in project, and how it reflects your personality.
